A. Education

- 2018-Till date **Research Scientist** “Evaluating the cellular and molecular mechanism of scattered IEC apoptosis mediated necrosis and inflammation in Necrotizing Enterocolitis” Stanley Manne Children's Research Institute, Ann and Robert H. Lurie Children's Hospital of Chicago, Chicago, Illinois, USA.
- 2014-2018 **Post-Doctoral Research Fellow** “Identifying a key inflammatory biomarker for the pathogenesis of obesity induced insulin resistance” Creighton University, Omaha, Nebraska, USA.
- 2009-2014 **Ph.D.** (Biotechnology). “Immunomodulatory and Anti-arthritis potential of swertiamarin from *Enicostema axillare* (Lam), A. Raynal., using *in silico*, *in vitro* and *in vivo* experimental models” Loyola College, University of Madras, Tamilnadu, India.
- 2007-2009 **M.Sc.**, (Biotechnology). Loyola College, University of Madras, Tamilnadu, India
- 2004-2007 **B.Sc.**, (Biotechnology). Sri. Paramakalyani College, Manonmaniam Sundaranar University, Tamilnadu, India.

B. Research Highlights

I have focused to elucidate the role of inflammation in the pathogenesis of human diseases including rheumatoid arthritis, obesity, diabetes, and cancer. I have involved in many research fields such as immunology, pharmacology, and molecular biology. I have fundamental knowledge of genetic mouse models. I received training in biomedical research during my M.Sc project work at Central Drug Research Institute, India, where I have learned *in vitro* techniques to isolate and handle osteoblast cells (Mesenchymal stem cells) from calvaria of mice, osteoclast cells (Hematopoietic stem cells) from bone marrow of mice under aseptic conditions. In addition, I have learned *in vivo* techniques to handle mice and rats specifically ovariectomized to induce osteoporosis in female rats. In my doctoral studies at University of Madras, India, I evaluated the molecular role of bioactive agents for the management of human diseases with special emphasis on rheumatoid arthritis (RA). My interest in immunological-based arthritis diseases motivated me to identify the cytokines mediated intracellular signalling apoptosis and inflammatory molecular pathways as targets of anti-inflammatory agents by using *in silico* (Auto docking), *in vitro* and *in vivo* approach for the management of RA. I have experience in working with animal models (mice and rats) and with various *in vitro* cell system models. During my post-doctoral duration at

Creighton University, I applied my knowledge and expertise in the various aspect of immune-biology in obesity and diabetes human subjects. I have also involved on insulin resistance model in Yucatan micro swine emphasis on the role of inflammatory cells and protein kinases. My key publications to support our hypothesis are provided. Recently, I have been offered a research position at the Laboratory of Center for Intestinal and Liver Inflammation Research, Stanley Manne Children's Research Institute, Chicago to study the cellular and molecular mechanism of scattered IEC apoptosis mediated necrosis and inflammation in Necrotizing enterocolitis (NEC). To better understand the mechanism of IFN- γ - mediated sensitizing intestinal epithelial cells to necroptosis and inflammation, I am working in unique triple-transgenic (3xTg) mouse model.

C. Honors and Recognitions

- 2018-present **Co-Investigator** in ongoing research projects which are focused on exploring insights into mechanisms of inflammation and intestinal tissue injury and supported by federal funding agencies including the NIH and VA.
- 2013-2014 **Senior Research Fellow** (Indian Council of Medical Research), Division of Ethnopharmacology, Entomology Research Institute, Loyola College, Chennai, India.
- 2013 **Young Achiever Award**, Pondicherry Centre for Biological Sciences, Pondicherry, India.
- 2011-2013 **Senior Research Fellow** (Indian Council of Medical Research), Division of Ethnopharmacology, Entomology Research Institute, Loyola College, Chennai, India.
- 2010-2011 **Junior Research Fellow** (Indian Council of Medical Research), Division of Ethnopharmacology, Entomology Research Institute, Loyola College, Chennai, India.

D. Membership in Associations

- 2020-present Editorial Board: Global Journal for Pharma and Allied Sciences
<http://journalforpharma.com/editorial.html>
- 2019-present Editorial Board: Mediators of Inflammation
<https://www.hindawi.com/journals/mi/editors/>
- 2019-present Editorial Board: International Journal of Inflammation
<https://www.hindawi.com/journals/iji/editors/>
- 2018-present Editorial Board: World Journal of Pharmaceutical Research
https://wjpr.net/index.php/dashboard/editorials_board
- 2018-present Editorial Board: Microbes and Immunology Research
<https://ospopac.com/journal/microbes-and-immunology-research/board-members/2>
- 2018-present Editorial Board: World Journal of Pharmacy and Pharmaceutical Sciences
